- Stay Hot Guarantee

# HYDROTHERAPY

As our lifestyles have changed over time, the bathtub has evolved from basic commodity to object of luxury. And with every bathtub we've manufactured over the past 40 years, our mission has been to create the perfect balance of high-quality product and high-level experience. That means hydrotherapy that's more than just an afterthought or a frivolous add-on. It's technological innovation beautifully disguised as mental and physical invigoration.

Jetta. More than 40 years of design, research, and development crafted into every therapy tub.

## JETTA SOAK

Available in all of Jetta's product lines, this timeless hydrotherapy will renew and rejuvenate as you immerse yourself in the Jetta spa escape.

## JETTA WHIRL

To customize your spa experience, select from rotating back jets, Jetta's exclusive directional jets, or the sleek look of our InvisiJet technology.

## JETTA AIR

Balanced air flow throughout maintains even pressure in all injectors, providing a supremely spa-like bathing experience.

## JETTA RIVER

A smooth and flowing twist on hydrotherapy, JettaRiver offers a steady, gentle stream designed to soothe and relax the body and mind.

## JETTA WARM

JettaWarm is our surface heating system secured beneath the acrylic in a blanket of insulation to provide gentle warmth to your backrest.

## WHIRL COMBO

Recharge with dual hydrotherapy sensations as we combine JettaWhirl and JettaAir into a single spa experience.

## RIVER COMBO

Get the best of balanced air flow with smooth and steady water flow to create just the right combination of stimulation and relaxation.

# InvisiJet TECHNOLOGY

Exclusive to our Affinity Collection, our InvisiJet Technology houses the jet behind the tub wall to maintain a seamless tub interior with a sleek, modern look. Each compact InvisiJet needs only a ¼" opening in the tub wall to generate an invigorating whirlpool action with the same caliber of sensation and benefits of the classic whirlpool.

## STAY HOT GUARANTEE

Delight in the warmth of Jetta's exclusive warm water promise. Our Stay Hot Guarantee is designed to draw the maximum amount of heat from the foam insulated JettaWhirl system and transfer it back into your bath water. The result is a stable bathing temperature for your at-home spa experience.

Jetta guarantees that the water in our insulated whirlpool baths will stay within 2 degrees of its original fill temperature for 30 minutes of use without an in-line heater.
